Our services

What is Hospice Care?

A hospice is not just a building. It is a way of caring for people. Hospice care aims to improve the lives of people who have a progressive life limiting illness. We aim to deliver care to people who have a deteriorating condition and preserve their quality of life. The highest value is put on respect, dignity and choice. We not only take care of physical needs, we consider emotional, spiritual and social needs, and we also support family, carers and close friends, both during the illness and bereavement

Care @ Home Project

The Care @ Home project offers hospice care at home with regular contact by specialist nurses to address the emotional and psychological needs of patients and carers.

Day Services and Drop In

Day Services and Drop-in aims to support any patients with life limiting illness, their carers and family members to manage symptoms, improve confidence and improve quality of life. What we can offer is a supportive environment, care and companionship, recognising and addressing patient's needs, information giving and bereavement support.

Therapeutic Care

Our wide range of therapies include complementary therapies such as Reflexology, Aromatherapy and Massage together with Creative Therapies in particular Music therapy and counselling.

In-patient Care

Kilbryde Hospice has a 12 bed in-patient unit where we will provide care to our patients with life limiting illnesses. As part of our phased approach, we plan to have this service running by summer 2016.
